# WeNiPol II Mobile LED Variable Message Sign

BS EN 12966 compliant. TOPAS approved

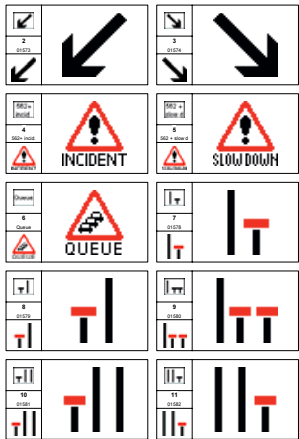

## Variable message sign for mounting on vehicles

- Especially designed upon request from police for emergency services & incident support vehicles
- Supplied with cab-fitted standard cable remote which always indicates the displayed sign
- High quality steel frame with highly efficient lifting and lowering motor
- Equipped with GPS speed sensor for automatically folding down the VMS to closing position preventing any damage to the system.
- Can be driven at 50 mph with WeNiPol II in the upright position; in the folded position, the vehicle can be driven at higher speeds (within legal limits)
- 12/24 V system which can be mounted on any vehicle using the roof-bars
- Battery Guard is supplied as a standard
- Minimal power consumption via optimised electronics
- Also available with integrated amber or blue flashers (St+)
- Authorised by the DfT with ca. 20 signs in red/white LEDs

DESIGNED, ENGINEERED AND MANUFACTURED IN GERMANY
